

Are you looking for a place to **rehabilitate closer to home?**

Don't want to rehabilitate in a nursing home?

WE CAN HELP!

Specializing in:

- Short Term Rehab
- Physical, Speech, and Occupational Therapy
- Stroke Therapy
- Outpatient Therapy
- Wound Care Services
- Comprehensive Recovery from Surgery, Illness, Fall
- **Medicare Certified, Medicaid Approved, Private Insurance Accepted**

While in the Swing Bed program at Boyd Hospital, you can expect:

- Private Room
- Private Bathroom
- Dietary considerations
- Activities to keep you engaged
- Comfortable visiting options for family and friends throughout your stay
- Individualized care
- One-on-one therapy and nursing

Boyd Healthcare Services understands the challenges you may face in trying to rebuild and regain your strength after being discharged following a surgery, illness, or other medical issue; you may not be ready to return home yet, and we're here to help!

Swing Bed is a program with inpatient services that offers speech therapy, physical therapy, occupational therapy, wound care, nursing, and daily hygiene care after your hospitalization. *You do not need to be hospitalized at Boyd Hospital to enter the Swing Bed Program in Carrollton; you can request to be sent here from any medical facility following your hospitalization or surgery.*

REQUEST THE "SWING-BED" PROGRAM AT BOYD HOSPITAL!

OUR NUMBER ONE GOAL IS TO GET YOU HEALTHY AND HOME!

The number one goal of the Swing Bed Program and all staff involved is to get you back to your normal daily life at home! Through therapy, nursing care, and using an individualized interdisciplinary approach, we work with each patient to strengthen their mind, body, and spirit for independence.
