

NEW THERAPY ROOM OPENS AT BOYD HOSPITAL

**We provide therapy during your *hospital* stay, at *home*, and for *outpatient*,
You can keep the same therapist through all locations!**

Therapy Patients at Boyd Hospital will be able to enjoy a new setting for private therapy sessions at Boyd Hospital; a new therapy room designed for better privacy, more natural lighting, and a more personal experience opened on July 15. The room is an addition to the recently updated “Wellness Center” and provides three separate spaces for outpatient therapy.
